

RINCON PARK PLAZA

SAN FRANCISCO, CA

Project Description

This magnificent site on San Francisco's waterfront will soon be home to two new restaurants in the recently completed Rincon Park. The 20,000 sf parcel affords fantastic views to the Bay Bridge, Ferry Building, and the San Francisco Bay.

Working in close collaboration with the BCDC, Port of San Francisco, JMA Ventures, MBH architects, and the restaurateur, CMG is designing a plaza space that accommodates a variety of programs and users. Rich paving and sculptural seating elements integrate with the surrounding park while maintaining a distinct identity for the restaurants.

Client

JMA Ventures, LLC.
